

# CANINE BED BUG INSPECTION

Certified by the National Entomology  
Scent Detection Canine Association

**THE MOST ACCURATE  
BED BUG DETECTION  
TOOL AVAILABLE TODAY!**

## BED BUG SNIFFING DOGS IN MICHIGAN, OHIO, NORTHERN INDIANA, KENTUCKY AND WEST VIRGINIA

Continuing our long history of introducing innovative service solutions, Rose Pest Solutions provides Bed Bug Canine Inspection services to clients in the Toledo and Columbus areas. Bed bug dogs have been successfully used throughout the county and we are able to offer this smarter approach to detecting bed bugs locally.

## THE MOST ACCURATE BED BUG DETECTION TO

- ✓ Detects live bed bugs and live bed bug eggs.
- ✓ Amazing accuracy in a fraction of the time.
- ✓ Can detect hitchhiking bed bugs and light infestations.
- ✓ The key to managing bed bug costs is early detection.

## ADVANTAGES OF A K-9 BED BUG INSPECTION

### SAVES MONEY

- ▶ The only 'tool' that accurately detects ALL STAGES of LIVE BED BUGS by their scent.
- ▶ They can search an entire hotel room in 2-3 minutes with amazing accuracy.
- ▶ A regular pro-active inspection program can reduce the possible financial impact and damage to your brand reputation.
- ▶ Early detection is the key to lower remediation costs.

### PEACE OF MIND

- ▶ Regular inspections provide you, along with residents and guests with peace of mind that bed bugs have not been found on the property.
- ▶ Infestations can be eliminated before they spread.
- ▶ If a bed bug is detected, that specific area can be treated or sequestered to prevent an infestation.
- ▶ An inspection following a treatment can confirm that all bed bugs have been eliminated.

## COMPARE: HUMAN - VS - CANINE INSPECTION

Trained Pest Professional	Trained Canine Bed Bug Inspection Team
20 minutes or more to inspect a hotel room.	2 -3 minutes to inspect a hotel room.
Disruptive inspection must move furniture and unmake beds.	Minimal to no disruption. Room is left intact.
Visual identification only, must see bed bugs to identify infestation.	Detects the odor of live bed bugs and viable eggs.

## ESTABLISHED BED BUG DIVISION

Rose began their Canine Bed Bug division in 2011 with two trained bed bug sniffing dogs. Since then we've added five new dogs and handlers, trained specifically to detect live bed bugs and bed bug eggs. Our six active canine teams have been trained using the same methodology and regimen as bomb sniffing dogs, drug dogs and termite dogs.

The Handlers are also trained and certified. Each team is required to pass this test annually in order to maintain certification. Rose's Scent Detection Dogs are trained by **J&K Canine Academy**.
